TO: Board of Directors of T.I.T.L.
FROM: William L. Steele
SUBJECT: Report for December 1976

STAFF

No changes.

FACILITIES

Another month has gone by without a breakdown or repair. An excellent way to end a year.

ACTIVITIES

Samples from all 50 locations were received and the selection progress is underway. A few brands, in limited distribution, are still being sought. These should be in by mid-January, and testing should be underway by the end of the month.

Results for the new American monitors are almost all in with only one or two labs to hear from. So far the tar averages range from 18.5 to 18.8 mg/cig.
